Experience

Qodeit
from 2034-06-17 to 2023-03-17

web developer

I worked as a full stack developer intern at Qodeit for 3 months. I was working mainly on frontend part. I learnt to create working forms, creating beautifull UI, implement payment gateways,converting html to pdf, sending mail,integrating chatGPT-3 etc.

Projects

Personal Portfolio Website
https://karaletanmay.github.io/Portfolio/

This is my personal portfolio website. I can display my projects, academics, achievements and all other important information about me to viewers. People can contact me from infromation given for buissness purpose.

backend of tour and tourism website
https://github.com/KaraleTanmay/Tour-and-tourism-API-with-backend

I am creating a server side rendered website under a NodeJs course. I learnt to create various API endpoints and handling requests using express and MongoDB. Also how to provide functionalities like searching for specific field, sorting. Add academic/ personal project
